Food Waste & Packaging

Necessary vs. Avoidable packaging

Improper Food Handling Can Cause Food Waste

Ways to Reduce Food Waste in Daily Life

Putting It into Practice at University

and

Separate unavoidable scraps: Keep food scraps separate from plastic bags, wrappers and other packaging.

Compost where available: Use a designated campus or community food-scrap collection point. Check which materials it accepts—different composting systems accept different foods.

- [ ] Take only what you can finish
- [ ] Store leftovers properly
- [ ] Bring your own
